

Bathroom Grooming & Storage Planning Book

THE BOLD LOOK
OF **KOHLER**®

Planning Tips

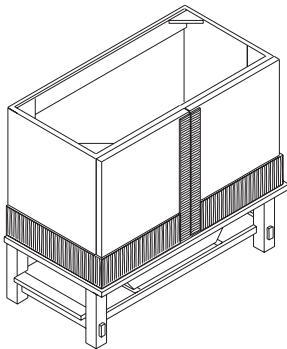

Now that you've decided to create a space for grooming and storage within your bathroom, what's next? Where should you begin? Once you have an idea of what you are trying to accomplish, grab a notepad, a tape measure and a sharpened pencil. Below you will find some helpful guidelines for planning your project.

Getting Started

1. Create an idea/inspiration folder.
2. Put together a prioritized list of things you need and a list of the things you want.
3. Do you plan on keeping the existing floor plan, or are you looking for a change?
4. Engage the experts – architects, general contractors, builders, bathroom designers or home improvement specialists. Discuss your ideas, needs and desires. Make sure you have some idea of probable costs and construction timeframes.
5. Sketch your design on paper.
6. Decide what work you will do yourself and what you'll hire out.
7. Set a realistic budget you can live with.
8. Consider how you will finance your project.
