Sinks & Faucets

THE BOLD LOOK
OF **KOHLER**®

- John Ruskin

Quality is not a matter of money—but of knowledge and wisdom. Even the small house must have the finest fixtures.

KOHLER OF KOHLER

WHEN A FELLER NEEDS

AN ARCHITECT

Butter... milk... and so on, and so on. What a help it is to have a few experts among your bathroom friends who you can turn to for their helpful, reliable advice—building a home.

But an architect of a special kind and ask him a few pointed questions. He'll tell you that quality advice costs, that no budget is too small to cover good design and good service. He'll show you that simplicity at critical points of construction is plain common sense, and a lot favored in price, in many ways, to be right.

From to stand calm, the bathroom speaks volume about your way of living. The true merit of your character and confidence is told in your bathroom design choice.

Then you find Kohler fixtures and fittings in the homes of architects and other men and others who have more about plumbing than the man on the street. You are assured that the best and best of Kohler work—

the world's finest of its kind and kind—

the other side of Kohler's work, experts know that the Kohler work means thoroughness through the work, that Kohler engineers and workers put a craftsman's pride in their products—a pride that shines again in your home.

of Kohler's fixtures, being chosen by architects and engineers, both with their own design and engineering, that of modern plumbing, at the best. While the it says... Kohler Co. Founder 1873, Kohler, Wisconsin, Manufacturer of Kohler Electric Plumb... Branches in principal cities.

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company, with over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and design. Bolder than ever.

We believe there are a few essential ingredients that go into creating exceptional kitchens: purposeful functionality, smart design and beautiful style. And we're passionate about bringing you kitchen sinks and faucets that combine all three. With KOHLER®, you can design a kitchen that not only works with you—your cooking habits, your lifestyle, your home—but a kitchen that inspires you. So take a look inside. We'll help you navigate our kitchen sink and faucet offering quickly and easily, so you can find the combination that makes the most sense for you.

In addition, you can explore the latest kitchen design trends, plan your own space and learn more about our kitchen sinks and faucets when you visit [KOHLER.com/KitchenGallery](https://www.kohler.com/KitchenGallery).

Why KOHLER®?

People have been turning to KOHLER for help with kitchen design for more than a century. The reputation we've earned for innovative design and uncompromising quality is certainly a large part of the reason why. But perhaps even more important is the holistic approach we take to creating kitchen sinks and faucets. We study how people work in the kitchen, research material and color trends, and develop technologies to enhance efficiency. Our goal isn't just to manufacture beautiful sinks and faucets – it's to bring you products that streamline your workflow, complement your appliance and surface choices, and make your kitchen a comfortable, easy place to be.

Kitchen Solutions

From functionality and material to style and installation, our kitchen sinks and faucets offer an incredible range of design options. Whether you're building or remodeling an existing space, we can help you achieve the look and feel you want. And, because all the variations can be a bit overwhelming, we walk you through what's what, so you can move quickly from understanding the basics to imagining new possibilities.

Strength. Style. Soul. KOHLER Enameled Cast Iron

Nothing makes an enduring statement to innovative design, lasting beauty and timeless craftsmanship in your home like KOHLER Enameled Cast Iron. A thoroughly modern choice, each piece is made in part with recycled material. And while other trends come and go, few materials can match the strength, style and soul of cast iron.

Infinite Possibilities – KOHLER Faucets

The myriad shapes and forms of water provide endless possibilities for inspiration, creativity and expression. Our designers continuously explore new shapes, forms and lines – constantly seeking inspiration from the world around them. Our engineers work tirelessly in the pursuit of greater efficiency and leading-edge technology. The result of our exploration opens up worlds of possibilities for self-expression in the kitchen.

Kitchen Solutions

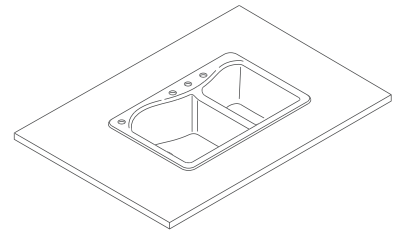

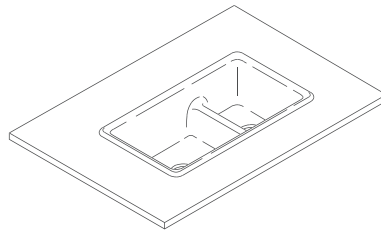

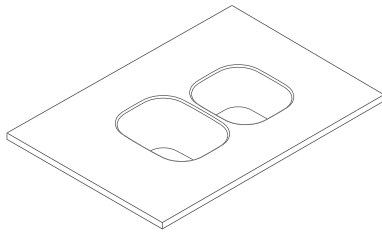

You may already have some sense of how you want your kitchen to look and feel. Perhaps you've already chosen your cabinets and countertops and selecting your kitchen sink and faucet may seem like a quick last step. And while we try to make the process as simple as possible, there are a number of style and functionality options you'll want to consider before making your final selections. We'll walk you through those options in the section that follows and help you settle on a sink and faucet combination that makes sense for you.

Before You Choose a Kitchen Sink

As you design your kitchen and choose the style of your sink, there are several functionality and installation options you'll want to consider, especially as they may impact your faucet selection. We've outlined the basic information below. If you find you have additional questions, visit [us.KOHLER.com](https://www.kohler.com) or contact your showroom representative.

Bowl Count

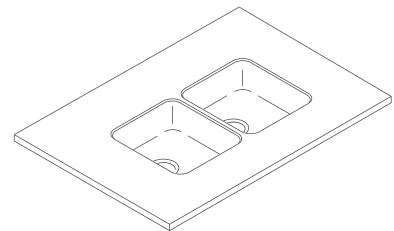

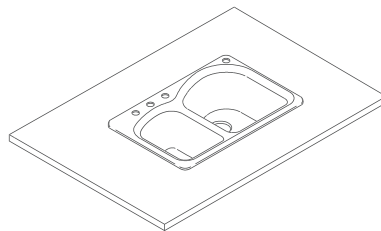

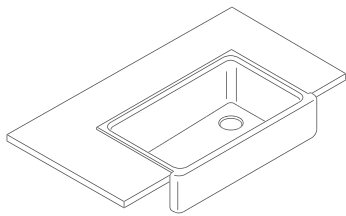

We offer single-, double- and triple-bowl sinks to match the way you work – whether you use your dishwasher for dishes and just wash large pots in the sink or you hand wash your dishes and want to separate clean and dirty items. You'll also find a variety of bowl sizes in our offering and may want to consider a sink with a wet work surface for food preparation.

Smart Divide®

If you often wash large pots and pans yet want the functionality of a double-bowl sink, consider a Smart Divide sink. The divider is uniquely developed to make it easier to clean large, bulky items while keeping clean and dirty items separate.

Bowl Configuration

KOHLER® sinks are available in a range of configurations, including double-equal and offset bowls. In addition, our Undertone® line of sinks can be grouped to create customized configurations.

Apron-Front

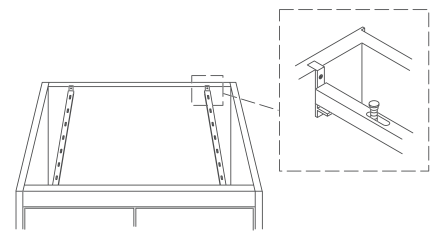

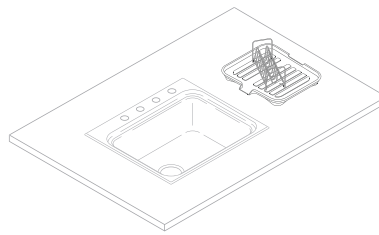

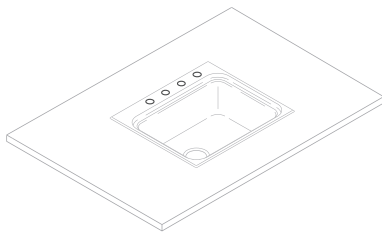

Often called farmhouse sinks because they evoke images of traditional kitchens, KOHLER apron-front sinks have a stylish panel in front and are available in both tile-in and under-mount models. Self-Trimming™ installation lets you install an apron-front sink with most conventional cabinetry. Our fresh approach to color and material includes apron-front options in enameled cast iron and stainless steel for any décor.

Top-Mount

A particularly easy model to install and frequently used with laminate counters, the top-mount sink's rim extends above the countertop surface and supports the sink's weight. Clips and bolts under the counter hold the sink securely in place. Many of our sinks accommodate both under-mount and top-mount applications.

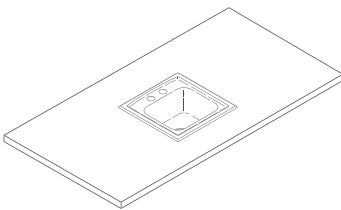

Under-Mount

These sinks mount beneath the counter and are most often used with solid-surface countertop materials like granite and marble. Under-mount installation highlights the curved contours of the sink bowl and makes counter cleanup a breeze. Many of our sinks accommodate both under-mount and top-mount applications.

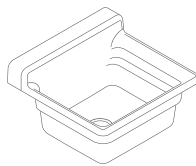

Faucet Holes

You'll need to determine the number of faucet holes needed for your faucet when you choose a top-mount sink. The number will depend on the style of faucet you prefer and whether or not you'd like to include a sidespray, filtered water or soap dispenser, or additional functionality.

Accessories

Many of our sinks come with custom accessories, including bottom bowl racks and cutting boards, to extend the longevity of the sink and enhance functionality. Basic accessories are available for all of our kitchen sinks. In addition, several sinks, such as Stages™ and Indio®, come with accessories unique to their designs.

Under-Mount Sink Kit

This kit helps ensure quick, sturdy installation of most KOHLER® Enameled Cast Iron under-mount sinks, helping to eliminate the need to build a wood frame or drill into the countertop.

Bar Sinks

Bar sinks can be installed as a complement to the primary sink in the kitchen to help in food prep or cleanup or as a stand-alone sink in a family room, entertainment area or anywhere else you entertain guests.

Utility Sinks

Our utility sinks allow you to take great style and functionality beyond the kitchen and into the laundry room, greenhouse, basement or garage. We offer a range of durable sinks that stand up to a variety of projects.

Meet Your Match

If you love the challenge of pairing styles, colors, finishes and more, we invite you to jump in. Take a look at all of our sinks and faucets and find the match that's right for you. If, however, you'd like a little more guidance in choosing a winning combination, we're happy to help. Our designers have paired several sinks and faucets that work beautifully together in a variety of kitchen settings.

Meet Your Match

We had our designers choose a selection of faucet and sink pairings that offer a variety of style, function, installation and material options. So whether you’re simply replacing your sink and faucet or building a new home, you should find a combination that’s right for you and your space, in a style and material you love.

Relaxed Traditional

A smart, easy replacement solution, the Deerfield® Smart Divide® top-mount sink and Bellera™ pull-down faucet with escutcheon feature subtle, traditional style. KOHLER® Enameled Cast Iron paired with Vibrant® Stainless faucet finish introduces rich layers of color into the kitchen.

Everyday Elegance

If you’re replacing a top-mount sink and faucet, this pair offers a stylish transitional solution – not too traditional or too modern. The Vault™ Smart Divide sink and Simplice® pull-down faucet give you enhanced functionality and a fresh look.

Iconic Contemporary

If you want bold, eye-catching design for a modern setting, the Karbon® articulating faucet and Indio® sink are the pair for you. The convenience of the sink's side faucet deck and the smooth, versatile functionality of Karbon make this a smart as well as stylish match.

Strength. Style. Soul.

KOHLER® Enameled Cast Iron

Strength. Style. Soul.

From the latest styles to legendary classics, no other material offers the character and craftsmanship of KOHLER® Enameled Cast Iron. Crafted in Kohler, Wisconsin, from at least 80% recycled material, each piece embodies our commitment to creating the finest sinks for over 100 years. Built to last for generations, KOHLER Enameled Cast Iron makes a bold statement of beauty in your home.

KOHLER® Enameled Cast Iron

KOHLER Enameled Cast Iron sinks can withstand whatever you and your family dish out, from heavy pasta pots to searing hot skillets. Our Lifetime Limited Warranty* guarantees the rich enamel finish will not chip, crack or burn – so you can count on KOHLER to endure in your home with strength, style and soul – for life.

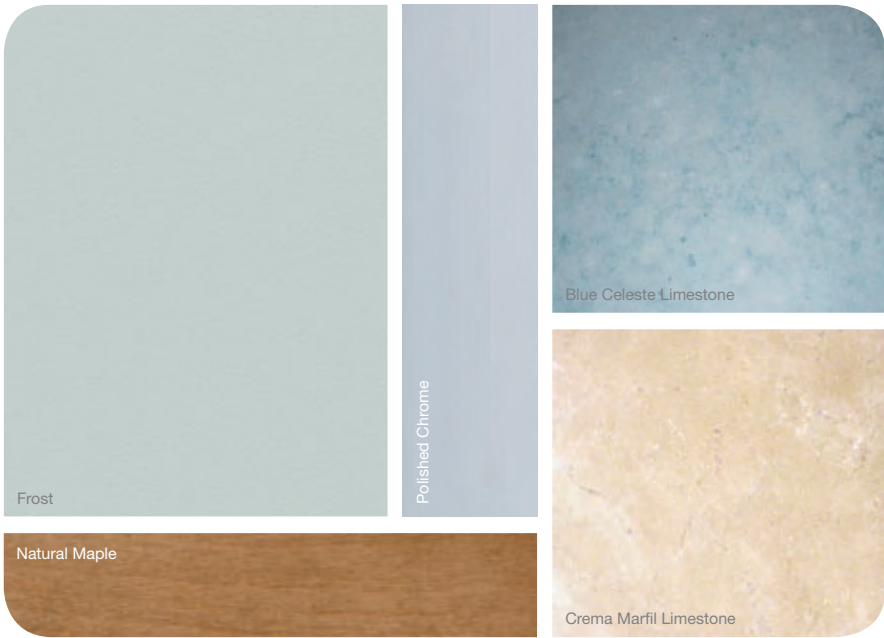

*KOHLER Enameled Cast Iron kitchen sinks installed in North America carry a Lifetime Limited Warranty for as long as the original consumer purchaser owns his or her home.

Skilled artisans still craft KOHLER Enameled Cast Iron sinks, in Kohler, Wisconsin, working with mostly recycled material and, in many instances, hand-applying enamel. The unique casting process results in subtle variations of texture that you can feel, making each sink just a bit different from the next – so yours is truly one of a kind. When we create something with this level of integrity and pour so much emotion into it, we know what it means to make something meaningful, something that lasts.

Bringing Color to Life

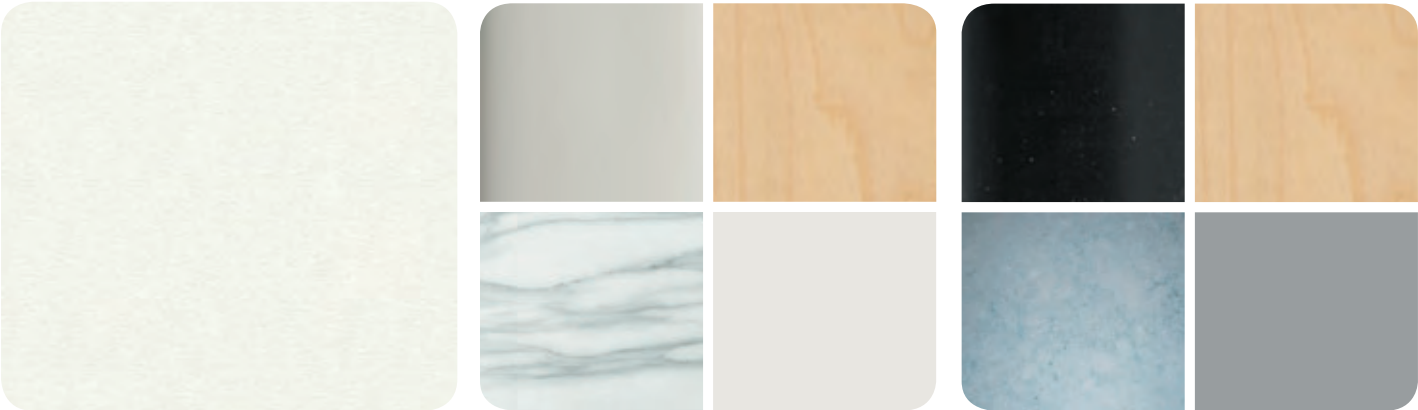

This year home trends are all about personalizing your space with color. In warm or cool shades, KOHLER® Enameled Cast Iron sinks become the foundation for just about any look or feel you want to create: bold rooms with bright tones and rich patterns that inspire you; or subtle rooms with soft, monochromatic hues that ground you. We had our designers put together a few bold and subtle palettes, pairing our most popular colors with KOHLER faucet and wood finishes, as well as ANN SACKS® tile and Benjamin Moore® paint. Turn the page for more inspiration.

KOHLER Enameled Cast Iron - Frost
Faucet Finish - Polished Chrome
Stone 1 - Blue Celeste Limestone
Stone 2 - Crema Marfil Limestone
Wood - Natural Maple

Sea Salt™

If timeless design with classic materials is what you're after, consider this Sea Salt palette. Muted patterns give depth to both the Calacatta marble and the Sea Salt sink, while light tones keep your kitchen bright and airy.

Liven up your kitchen with a contemporary take on Sea Salt. The contrast between crisp matte colors and cool dimensional patterns gives this palette a dramatic look and feel. Just the right touch of daring for the adventurous home chef.

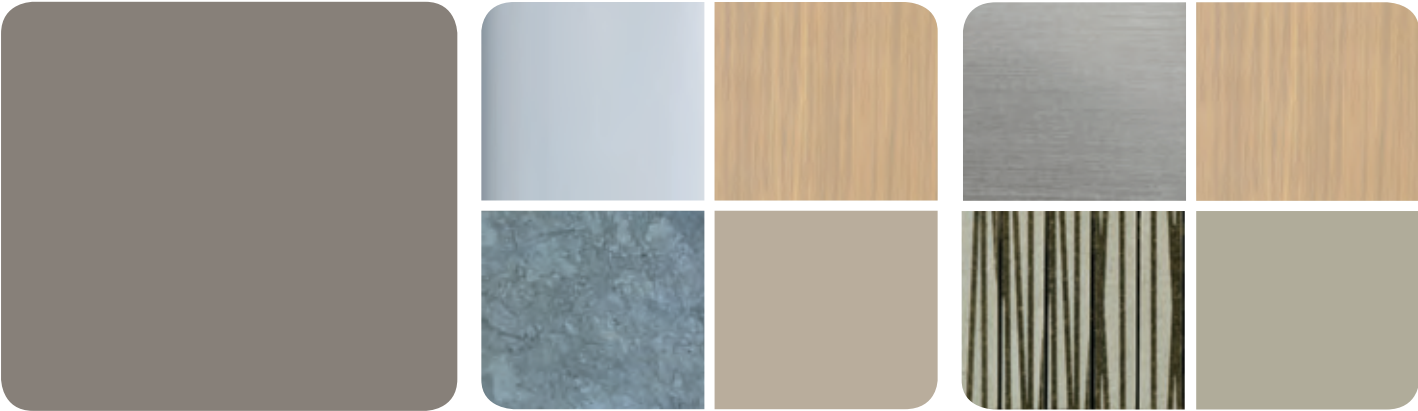

Vibrant® Polished Nickel Finish
Calacatta Marble

Natural Maple Wood
Benjamin Moore® Paint
- Calm 2111-70

Matte Black Finish
Blue Celeste Limestone

Natural Maple Wood
Benjamin Moore Paint
- Pewter 2121-30

Cashmere™

Long stretches of beach. Nothing but dunes, water, sky. That's the sort of coastal quality this Cashmere palette evokes. A beautiful backdrop for natural light in an open kitchen, these colors look great in a traditional or contemporary space.

Take a retro approach in the kitchen with this blend of creams, deep neutrals and metals. Perfect for an accent wall or backsplash, the stone-and-metal tile has an organic linear pattern that sets off the earthy tone of Cashmere.

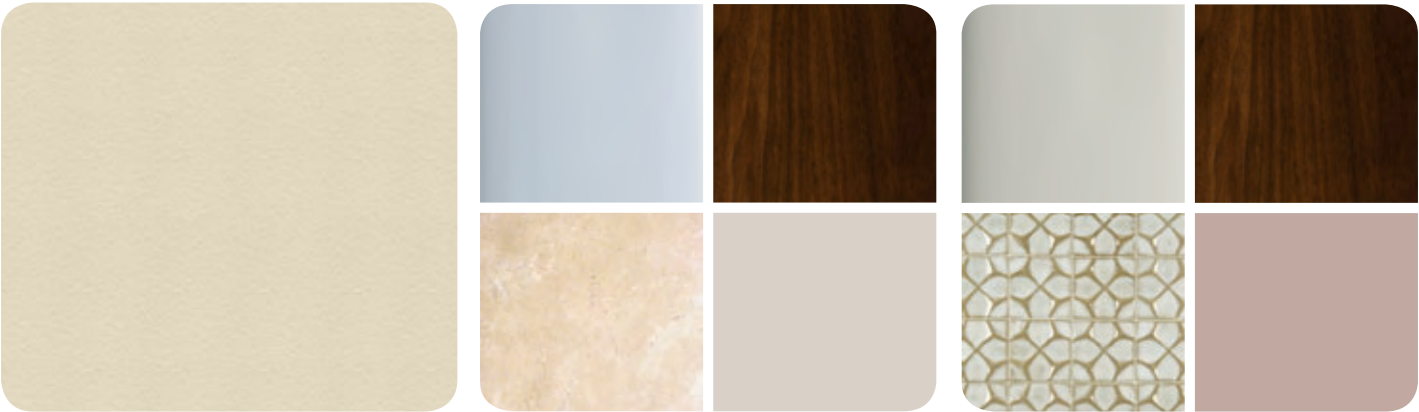

Polished Chrome Finish
Lagos Blue Limestone

White Oak Wood
Benjamin Moore Paint

Vibrant Stainless Finish
ANN SACKS®
Selvaggio Linea Tile

White Oak Wood
Benjamin Moore Paint
- Herbal Escape 1487

Cane Sugar™

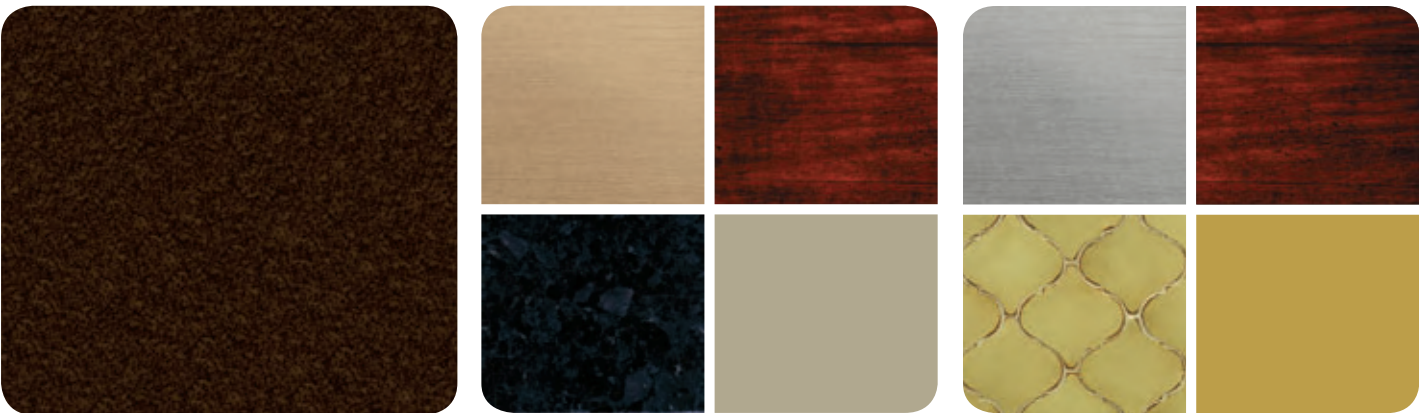

Friends and family will love to be entertained in the kitchen you design with this warm Cane Sugar palette. Blending colors and finishes that complement traditional architecture and furniture, this palette helps you create a comfortable, welcoming space.

Step into feminine chic with this stylized collection of colors and textures. Smart and sophisticated, this Cane Sugar palette hints at romance with soft tones and lace-like tile. With the right mix of glamour and charm it's ideal for an urban setting.

|---------------------------|--|--------------------------------|--|
| Vibrant® Stainless Finish | Black Walnut Wood | Vibrant Polished Nickel Finish | Black Walnut Wood |
| Crema Marfil Limestone | Benjamin Moore® Paint
- Sea Froth 2107-60 | ANN SACKS® Nottingham Tile | Benjamin Moore Paint
- Flax 2098-50 |

Black 'n Tan

A casual elegance emerges from this rich, varied palette. The dimensional character of Black 'n Tan is paired with vibrant wood and marble to give this palette a substantial, solid look and feel. Well suited for a kitchen that's the cornerstone of family life.

This palette is all about warmth. If you're drawn to the brilliant hues and intricate mosaics found in the architecture and culture of Morocco, you'll love these sun-drenched, saturated tones. Your kitchen will reflect your own passion for life.

Infinite Possibilities

KOHLER® Faucets

Why KOHLER® Faucets?

The real workhorses of the kitchen, our faucets are designed for beauty and manufactured for life. You can count on them to be leak-free and reliably on task – rinsing, washing, filling – year after year. As tough as they are beautiful, our faucets feature finishes that stand up to wear twice as well as the industry standard. Stunning design and steadfast performance – at Kohler, they're kitchen essentials.

Before You Choose a Kitchen Faucet

As you design your kitchen, there are several functionality and style options you'll want to consider to ensure you choose the right faucet for the way you work. We've outlined the basic information below. If you find you have additional questions, visit us [KOHLER.com](https://www.kohler.com) or contact your showroom representative.

Faucet Families

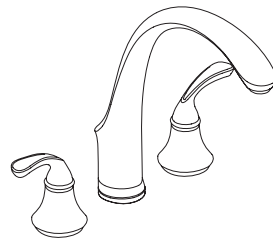

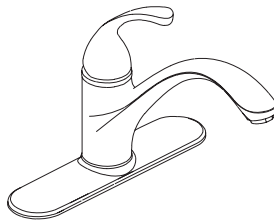

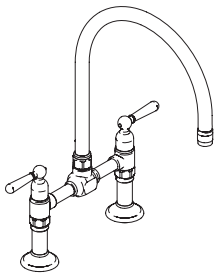

Several of our kitchen faucets are available in smaller sizes to accommodate a prep sink in an island application or a bar sink for an entertainment room setting. If you're looking for a coordinated look, see the chart on pages 136 -137 for faucet family information.

Pull-Down Spray

If you prefer a clean sink deck without a sidespray or additional accessories, a pull-down faucet may be the right solution. Pull-down faucets typically feature a generous spout height as well as multiple spray options – stream, spray and pause – for ease of use.

Pullout Spray

Offering the same functionality as pull-down faucets, pullout faucets generally have a larger section of the faucet that pulls away. If you like a larger grip area, a pullout faucet may be more comfortable for you to use.

Bridge

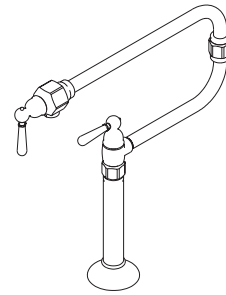

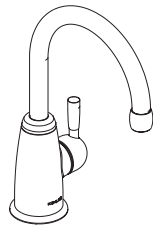

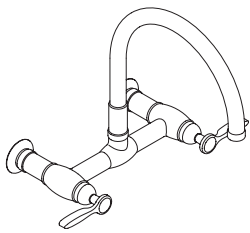

A fresh interpretation of a classic faucet design, bridge faucets can be mounted on a sink deck or wall. Bridge faucets feature a two-handle design with a generous swing spout and are available in traditional or contemporary styles.

Single-Handle

The volume and temperature are controlled by one lever, located either on the faucet or next to it, on single-handle faucets. If you prefer the simplicity of one control, check out our single-handle models, available in both traditional and contemporary styles.

Two-Handle

Many people prefer the familiarity and separate temperature controls of two-handle faucets. We offer a wide range of two-handle faucets with a variety of handle types, including lever, cross or wristblade, that are easy to operate.

Wall-Mount

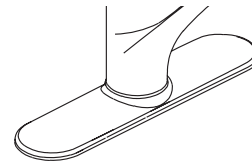

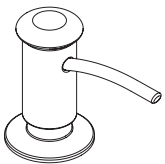

If you like little to no clutter on your counters, a wall-mount faucet can help you achieve that clutter-free look. Several of our deck-mount faucets, in traditional and contemporary styles, are available as wall-mount faucets.

Beverage

Dispensing clean, filtered drinking water, beverage faucets bring a new level of convenience to the kitchen. We offer both cold-water systems and hot-water systems for instant tea or cocoa. A filtration system is required.

Pot Filler

Wonderfully convenient for the home cook, wall- or deck-mount pot fillers are installed next to or above a stovetop, giving you quick access to water without having to transfer pots back and forth to the sink.

Accessories

We offer accessories in styles and finishes that complement our faucets and add to the functionality of your sink area. Soap/lotion dispensers, sidesprays, drains and strainers, as well as air gap and faucet hole covers are all available.

Sidespray

This small spray nozzle is completely separate from the faucet, connected to a pullout hose for full flexibility and functionality when spraying dishes or cleaning the inside of the sink. Great with bridge or traditional swing-spout faucets.

Escutcheon

An escutcheon is a simple ornamental plate that allows you to install a single-handle faucet on a three-hole sink. Most of our single-handle faucets have an escutcheon model available, which is perfect if you'd like to change from a two-handle faucet but still love the look of your sink.

Simplifying Life in the Kitchen

Today's kitchen is the busiest room in the house. It's a culinary workspace, a showpiece for guests and a gathering place for friends and family to cook, eat and celebrate. KOHLER® pull-down and pullout faucets are designed with this in mind, making tasks like meal prep and after-dinner dishes easier to complete.

Three-Function Sprayheads

Stream provides an aerated, full stream of water that's great for quickly filling large pots or vases but gentle enough to rinse delicate fruits and berries.

Spray offers a powerful option perfect for handling the dirtier jobs in the kitchen – rinsing dishes and spraying down your sink.

Pause is a convenient feature that allows you to interrupt the flow of water while you extend the faucet to water a plant or fill your coffee maker.

The KOHLER® Advantage

Exclusive ProMotion® technology delivers effortless sprayhead control. The braided nylon hose won't kink or tangle.

Secure docking of the sprayhead ensures a snug fit when retracted.

MasterClean™ sprayface resists calcium buildup, so the faucet is easy to wipe clean.

The Lifetime Limited Warranty* provides peace of mind knowing that Kohler backs up every faucet it manufactures.

*For complete warranty information, visit [KOHLER.com/Warranty](https://www.kohler.com/Warranty).

Unmistakable Beauty. Every Day.

The graceful lines of our faucets, coupled with tireless innovations, strike a delicate balance between functionality and art – making life simpler through design. Several of our kitchen faucets are available in multiple sizes or as part of a faucet family to accommodate a variety of applications.

Faucet Families

With KOHLER® faucet families, you can choose a pullout faucet with advanced functionality for your primary sink, a bar sink faucet for your island application, even a pot filler for the stovetop – all with a matching design. The chart below indicates which faucet types are available in each family.

For larger finish swatches, see page 177.

We encourage you to use the following glossary of terms as well as the color and finish index to help you in your decision-making process. If you have questions about specific products, you should find most information in the charts that follow each sink and faucet portfolio section. And, in the event that you still have questions, we invite you to talk with your nearest showroom representative and visit us at [us.KOHLER.com](https://www.us.kohler.com) for more information.

Indexes

Glossary of Terms 174

Colors & Finishes 176

Glossary of Terms

Apron-Front

Apron-front sinks are often referred to as farmhouse sinks because they can evoke period-style kitchens. These sinks have a stylish panel in front and are available in both tile-in and under-mount models.

Bar Sink

Bar sinks can be installed as a complement to the primary sink in the kitchen to help in food prep or cleanup or as a stand-alone sink in a family room, entertainment area or anywhere else you entertain guests.

Beverage Faucet

Dispensing clean, filtered drinking water, beverage faucets bring a new level of convenience to the kitchen. We offer both cold-water systems and hot-water systems for instant tea or cocoa. A filtration system is required.

Bowl Configuration

KOHLER® sinks are available in a range of configurations, including double-equal and offset bowls. In addition our Undertone® line of sinks can be combined in customized configurations.

Bowl Count

We offer single-, double- and triple-bowl sinks to match the way you work. You'll also find a variety of bowl sizes in our offering. Additionally, you may want to consider a sink with a wet work surface for food preparation.

Bridge Faucet

A fresh interpretation of a classic faucet design, bridge faucets can be mounted on a sink deck or wall. Bridge faucets feature a two-handled design with a generous swing spout and are available in traditional or contemporary styles.

Escutcheon

An escutcheon is a simple ornamental plate that allows you to install a single-hole faucet on a three-hole sink. Most of our single-handle faucets have an escutcheon model available, which is perfect if you'd like to change from a two-handle faucet but still love the look of your sink.

Faucet Accessory

We offer accessories in styles and finishes that complement our faucets and add to the functionality of your sink area. Soap/lotion dispensers, sidesprays, drains and strainers, as well as air gap and faucet hole covers are all available.

Faucet Family

Several of our kitchen faucets are available in smaller sizes to accommodate a prep sink in an island application or a bar sink for an entertainment room setting. If you're looking for a coordinated look, see the chart on pages 136-137 for faucet family information.

Faucet Hole

You'll need to choose the number of faucet holes if you choose a top-mount sink. The number will depend on the style of faucet you prefer and whether or not you'd like to include a sidespray, filtered water or soap dispenser, or additional functionality.

Pot Filler

Wonderfully convenient for the home cook, wall- or deck-mount pot fillers are installed next to or above a stovetop, giving you quick access to water without having to transfer pots back and forth to the sink.

Pull-Down Spray

If you prefer a clean sink deck without a side-spray or additional accessories, a pull-down faucet may be the right solution. Pull-down faucets typically feature a generous spout height as well as multiple spray options – aerated, spray and pause – for ease of use.

Pullout Spray

Offering the same functionality as pull-down faucets, pullout faucets generally have a larger section of the faucet that pulls away. If you like a larger grip area, a pullout faucet may be more comfortable for you to use.

Remote Valve

Several KOHLER single-handle faucets are designed with a remote valve – a separate standing valve, or faucet handle, which controls the water flow as well as the temperature.

Self-Trimming™

Unique to Kohler, Self-Trimming installation allows you to install an apron-front sink with most conventional cabinetry. Make a simple cut in the panel to install the sink. No additional trim work or caulking to fill cut lines is necessary.

Sidespray

This small spray nozzle is completely separate from the faucet, connected to a pullout hose for full flexibility and function when spraying dishes or cleaning the inside of the sink. Great with bridge or traditional swing-spout faucets.

Smart Divide®

If you use your sink mostly for washing large pots and pans, consider a Smart Divide double-bowl sink. The unique divider makes it easier to clean large, bulky items.

Under-Mount

These sinks mount beneath the counter and are used most often with solid-surface countertop materials. Under-mount installation highlights the curved contours of the sink bowl and makes counter cleanup a breeze. Many of our sinks accommodate both under-mount and top-mount applications.

Wall-Mount

If you like little to no clutter on your counters, a wall-mount faucet can help you achieve that clutter-free look. Several of our deck-mount faucets, in traditional and contemporary styles, are available as wall-mount faucets.

Single-Handle Faucet

The volume and temperature is controlled by one lever, located either on the faucet or next to it, in single-handle faucets. If you prefer the simplicity of one control, check out our single-handle models, available in both traditional and contemporary styles.

Top-Mount

A particularly easy model to install and a smart choice for laminate counters, the top-mount sink's rim extends above the countertop surface and supports the sink's weight. Clips and bolts under the counter hold the sink securely in place. Many of our sinks accommodate both under-mount and top-mount applications.

Under-Mount Sink Kit

This kit helps ensure quick, sturdy installation of most KOHLER® Enameled Cast Iron under-mount sinks, helping to eliminate the need to build a wood frame or drill into the countertop.

Sink Accessory

Many of our sinks come with custom accessories, including bottom bowl racks and cutting boards, to protect the sink and enhance functionality. In addition, several sinks, such as Stages™ and Indio®, come with accessories unique to their designs. Basic accessories are available for all of our kitchen sinks.

Two-Handle Faucet

Many people prefer the familiarity and separate temperature controls of two-handle faucets. We offer a wide range of two-handle faucets with a variety of handle types, including lever, cross or wristblade handles that are easy to operate.

Utility Sink

Our utility sinks allow you take great style and functionality beyond the kitchen and into the laundry room or greenhouse, basement or garage. We offer a range of durable sinks that stand up to a variety of projects.
