# Independence. Comfort. Trust.

## All without sacrificing style.

For generations Kohler has been committed to designing products that simplify life and bring beauty and comfort to the home. Like you, we continue to adapt to the evolving world around us, without losing sight of our commitment. As you take a fresh look at the design and functionality of your home, Kohler is ready to help you achieve the ease of living you desire.

Before we began designing our products for independent living, we made it a point to listen. We spent time understanding how you use the bathroom now and researching how you will use it as your needs change. As a result, we have developed a range of products that integrate seamlessly into your home and life, providing the design sophistication you love and the functionality you depend upon.

As your resource for Aging in Place bathroom design, Kohler makes it easy for you to find the best in functionality and style with our personalized service and showroom support. Call **888-9-BOLD-4-U** (888-926-5348) to speak to a Bold Independence Expert, or go to **KOHLER.com/Independence** to learn more about all of our products.

## Design Ideas for Independent Living

The thoughtful design of this bathroom showcases traditional beauty while integrating features that ensure ease of use and mobility. Beyond the detailed wainscoting and soft, neutral color palette, this bathroom offers a number of design elements that increase accessibility and comfort.

- Color contrast between the floor and the walls and the fixtures helps with depth perception
- Slightly rounded countertop eliminates sharp edges
- Honed-stone floors offer a more secure footing than polished stone or tile
- Simple wooden reinforcement behind the walls allows grab bars to be anchored securely
- Low-threshold bath eases entry and exit
- Five-foot radius between lavatory, toilet and bath is large enough for wheelchair access
- Task lighting on either side of the mirror helps with visibility when getting ready for your day

Product information and ADA compliancy for this room can be found on pages 22 and 23.

# Simple updates that are simply beautiful.

Creating a bathroom that will support your active lifestyle for years to come doesn't need to be complicated. It can be as simple as incorporating a few products, like grab bars and Comfort Height® toilets, that offer a little extra assistance. Taking proactive steps like this will give you peace of mind and prepare your home for future needs.

K-3517 Archer® Comfort Height two-piece elongated toilet

## Comfort Height Toilet

A Comfort Height toilet base is taller than standard toilets—about the same height as a chair—making sitting down and standing up easier.

K-11882 Margaux® 18" grab bar

## Grab Bars

Wall-mounted grab bars in the bathroom are easy to install and add stability and style with designs that match our faucets and accessories.

K-16230-4 Margaux single-control lavatory faucet with lever handle

## Lever-Handle Faucet

Faucets with lever handles do not require a firm grip for twisting and can be turned on and off with ease by all users.

## Design Ideas for Independent Living

The simple, clean look and intuitive functionality of this bathroom are the result of combining smart products with creative installation. The following key features and design considerations help make this bathroom inviting and easy to use.

- Mirrored storage lifts to open and close with a light touch
- Doorless storage solution provides easy access to bathroom amenities
- Single-control lever faucets can be turned on and off with an open hand or closed fist
- Cantilevered lavatory installation and a bottle trap allow users to sit comfortably at the lavatory
- Slide bar allows the handshower to be used from a seated or standing position
- Custom teak bench is anchored for extra support and offers a stylish option for a seated shower
- Bidet seat provides comfortable, water-based cleansing

Product information and ADA compliancy for this room can be found on pages 24 and 25.

# Elegant shower solution offers more than great looks.

The combination of appealing products and thoughtful installation can meet the challenges of changing needs without sacrificing the style of your home. Recessing a shower base to minimize the threshold is a simple solution for easy entry and saves the expense of a fully tiled shower. In addition, the smooth surfaces of receptors are easier to maintain than tile. A cantilevered lavatory installation provides room to sit while at the vanity. Well-placed, innovative products can make all the difference in creating a comfortable, accommodating environment.

K-9395 Archer, 60" x 60" receptor with removable drain cover

## Shower Bases

Recessed shower installations provide easy entry, a gentle slope and a wide area for safe and confident movement.

K-3608 Gabrielle, Comfort Height, elongated toilet and C3 toilet seat with bidet functionality

## Bidet Seats

The water-based, hands-free cleansing of bidet seats offers increased comfort and convenience, and a refreshed feeling of confidence and overall well-being.

UC3027FPE Uplift, mirrored cabinet

## Accessible Mirrored Storage

The Uplift mirrored cabinet by Roben, a Kohler company, can be opened and adjusted with minimal effort to accommodate users of multiple heights.

## Design Ideas for Independent Living

This well-appointed modern master bathroom blends Aging in Place and ADA-compliant products with beautiful design features at every turn. Each detail of the room has been considered in terms of design and accessibility.

- The Elevance™ Rising Wall bath affords a comfortable reclined bathing experience with easy entry and exit
- Open shower offers five-foot turn radius for wheelchair accessibility
- Belay® handrail and integrated bench seat add stability and comfort in the shower
- Elimination of accent rugs or bath mats to provide sure footing
- Contrast in color between the countertop and sink cabinetry helps with depth perception
- Cantilevered lavatories installed at two heights accommodate different statures or seated users

Product information and ADA compliancy for this room can be found on pages 26 and 27.

# Revolutionize your bathroom with a full-access bath and shower.

Someone who needs a little more assistance can create full-access solutions with Kohler. Balancing ADA-compliant and Aging in Place products in the bathroom lets you introduce extra stability and ease of use without compromising beautiful design. The new Elevance™ Rising Wall bath delivers a full bathing experience with increased accessibility. Our wide selection of products helps you design a bathroom that complements your life and home.

K-1913 Elevance Rising Wall bath

## Luxurious Bathing

Lounge comfortably as you relax fully enveloped in water. An extra-wide opening makes entry as easy as getting into bed.

K-17493 Flipside® 01 handshower

## Handshower

Mounted on a slide bar, the handshower is easy for standing and seated users to adjust and operate. A shower valve with anti-scald functionality ensures safety.

K-1846 Belay® 54" handrail

## Shower Handrail

The sturdy handrail integrates seamlessly into the tile for safety and offers a customized look that blends into the design of the room.

### Easy Entry/Exit

The extra-wide opening and chair-height seat of the Elevance™ Rising Wall bath provide a safe and comfortable way to enter and leave the bath.

### Effortless Lift

Raise the wall with one hand—it takes less effort than lifting a half-gallon of milk. The wall will easily lock in place and two watertight seals will inflate to prevent leaks.

### Full Bathing Experience

Lounge comfortably and enjoy a blissful experience as the waterfall fills the bath to a perfect soaking depth.

# Immerse yourself in a completely satisfying bathing experience.

The Elevance™ Rising Wall bath is a stunning display of engineering, assistance and elegance. The bath is engineered to deliver purposeful, easy-to-use benefits that last. It features a luxurious bathing experience and better bathing solution compared to a walk-in bath.

## Dual Seal

The dual seal prevents leaks and is backed by a lifetime limited warranty.\*

## Optional BubbleMassage.

Thousands of bubbles blissfully support and massage the body.

## Fast, Easy Drain

The Elevance Rising Wall bath is specially designed to drain in less than 2 minutes.

\*The dual seal is backed by a lifetime limited warranty when installed by a qualified installer. The lifetime limited warranty is valid in North America for as long as the original consumer purchaser owns his or her home. For complete warranty information, and to see how the seal works, visit [KOHLER.com/independence](https://www.kohler.com/independence).

(888-926-5348).

**Meet Us.**

Stop by a registered showroom to see our products on display. Showroom associates are ready to provide you with personalized design service, answer your questions and help you through the process of choosing products that are right for you.

**Trust Us.**

Since 1873, Kohler Co. has been improving the lives of its customers with exceptional products and services. Headquartered in Kohler, Wisconsin, we are recognized as a world leader in kitchen and bath design with a diversity of products that continually set new standards in design, craftsmanship and innovation—united by a single level of quality.

# A broad range of options. A single, trusted brand.

Our experience and breadth of products can't be matched anywhere else. Kohler offers a collection that delivers complete Aging in Place solutions for the bathroom without compromising on style.

## Comfort Height® Toilets

Comfort Height toilets have a seat height comparable to that of a standard chair. This puts less strain on the legs, knees and back, and makes sitting down and standing up easier for people of all ages.

## Bidet Seats

The water-based, hands-free cleansing of bidet seats offers increased comfort and a refreshed feeling of confidence and overall well-being.

## Lever-Handle Faucets

Single-control lever-handle faucets can be easily operated by a range of users with varying needs.

## Grab Bars and Handrails

Stable, wall-mounted grab bars or integrated handrails add safety and security to any part of your bathroom.

### Handshowers

Easy to handle, handshowers can be used comfortably from a seated or standing position.

### Lavatories

Wall-mounted lavatories and vanities offer easy access and mobility for seated users.

### Thermostatic Valves

Anti-scald technology protects against scalding even if the water pressure changes.

### Accessible Baths

From our Elevance™ Rising Wall bath to more traditional baths with lower thresholds, we have options that make getting in and out of the bath easier without sacrificing your bathing experience.

### Shower Bases

Shower receptors are a simple, seamless solution. Many offer recessed installations and slip-resistant surfaces for easy access, confidence and safety.

### Design Considerations

- Contrasting colors for floors and walls
- Rounded surface corners and edges
- No accent rugs
- Lighting for everyday tasks
